

Master of Science in

Environmental Information, Health and Public Management

理學碩士

環境信息、健康與公共管理

1 year Full-Time, 2 years Part-Time

Offered by Division of Social Science,
Institute of Space and Earth Information Science,
The Chinese University of Hong Kong

Who should apply?

Anyone who is interested in or graduated from the field of public health, public management, environmental information, geography, natural resources management or environmental assessment, urban and regional planning, risk and crises management, crime analysis and related fields.

Programme Structure

For full-time students: Complete 6 required courses + 2 elective courses + 1 final project in 1 year.
For part-time students: Complete 6 required courses + 2 elective courses + 1 final project in 2 years.

Required Courses

- ESGS 5002 Special Topics in GeoInformation Science (3 units)
- ESGS 5011 Introduction to Environmental Information, Health and Public Management (3 units)
- ESGS 5015 Spatial Analytics for Environment, Health and Public Management (3 units)
- ESGS 5016 Public Health (3 units)
- ESGS 5017 GeoInformation Technology for Risk and Crises Management (3 units)
- ESGS 5018 Environmental Remote Sensing Technology (3 units)
- ESGS 6061 Project in Environmental Information, Health and Public Management (4 units)

Elective Courses

- ESGS 5001 Earth System Science (3 units)
- ESGS 5003 Transportation Applications of GIS (3 units)
- ESGS 5060 Seminars in GeoInformation Science (1.5 units x 2)

Lecturers

Prof. TSE Lap Ah,
Director of COEHS

- Environmental and Occupational Exposures
- Public Health
- Environmental Epidemiology

Prof. LIU Lin,
Associate Professor

- Cryosphere Geophysics
- Geodesy and Near Surface Geophysics
- Radar Remote Sensing

Prof. HE Ying,
Associate Professor

- Transportation Planning and Policy
- Travel Behavior
- Urban and Regional Economics

Prof. MA Peifeng,
Assistant Professor

- Remote Sensing of Environment and Natural Disasters
- InSAR Technologies

Dr. Geoffrey SHEA,
Lecturer

- GIS Technologies
- Adaptive Mobile GIS
- OpenStreetMap

Dr. LI Rongrong,
Lecturer

- GIS for Logistics / Transportation
- Spatial Analysis
- Remote Sensing Applications

Prof. LIU Dong,
Research Assistant Professor

- Environmental Health through Geospatial Analytical Methods
- Examining Urban Mobility

Prof. HUANG Lingcao,
Research Assistant Professor

- Optical Remote Sensing
- Deep Learning for Computer Vision
- Permafrost Changes

Qualifications for Admission

- Applicants shall graduate or going to graduate from a recognized university with a Bachelor's degree.
- All students should fulfill the University's minimum English Language requirements for admission to programme. For detail, please refer to graduate school page below:

<https://www.gs.cuhk.edu.hk/admissions/admissions/requirements>

Application Procedure

Online application on the web of the Graduate School:

<https://www.gs.cuhk.edu.hk/socsc>

Application Period

September – March (next year)

Lectures are conducted here!
